Mrs. O. M. Barmore, .....	Girls' Supervisor.

## President's Report

TO THE HONORABLE STATE BOARD OF EDUCATION:

It becomes my pleasant duty at this time to submit to you the twenty-ninth Annual Report of the Montana School for Deaf and Blind, including the department for Feeble Minded persons.

### ATTENDANCE

Steadily our school is growing. During the year we had seventy-seven deaf, twenty-three blind, and one hundred twenty-one feeble minded. We are still able to accommodate all the pupils of the Deaf and Blind, but applications for the admission of Feeble Minded and Backward continue to come in much faster than we can build to accommodate them.

### HEALTH

The health of our pupils has been exceptionally good. Part of this is due, we feel, to the fact that we discouraged visitors from cities where contagious diseases were running.

During the fall a very heavy, awkward girl fell over in the recreation room and broke her leg, below the knee. However, after a number of weeks the bones knit together and she is walking again all right.

Another girl's left limb is paralyzed. This limb broke last fall and had to be cared for, for about six weeks. However, it finally healed and we sent her back to school where she is doing well.

Dr. B. C. Brooke was brought out to operate on one of the Ranch Colony boys for hernia, and while here found a boy suffering from suspended testicle, and very kindly operated on him also, thereby relieving him.

Many children have been operated on and relieved from adenoid, tonsil and eye troubles. This work was done by Doctors Donovan and Morse.

Two inmates of the Feeble Minded department, both epileptics, died during the year. These are the first deaths for some time. During the "flu" we lost five.

### FACULTY CHANGES

In the department for Feeble Minded, Mrs. Nelly C. Ross, of the music department has been transferred and is now matron, taking the place of Miss Sophia Anderson, who resigned to take charge of a home for foreign girls, in Chicago.

In the Blind Department, Mr. J. A. Morris was forced to go to a hospital for treatment for rheumatism, but Mr. John Sullivan our piano tuner substituted and we got along all right.

Miss Hallman and Miss Williamson resigned to go nearer home—in Wisconsin and their places are to be filled by Miss Lucy Buhrer, who taught for us three years ago, and Miss Fleecy Gooch, a trained teacher who comes to us from Kentucky.

### DISCIPLINE

Discipline is not a hard task. Depriving a child from the picture show or forbidding them from going to town for a week usually does the work. The Feeble Minded still wander off, now and then since we have no physical restraint, whatever.

### REPAIRS AND IMPROVEMENTS

On the Deaf and Blind side a new hot water heater has been installed which puts a majority of the buildings on a circulating system. In the bakery a new bread mixer and cake beater has been installed. Here a wall has been torn out enlarging the bakery and hot and cold water has been installed. New Raecolith floors have been laid in the kitchen and bakery.

Besides this all plastering, patching, painting and other repairing was done so that the entire place was put in first class condition.

At the Feebled Minded department a tunnel was run from the power house to the main building—F. M., a new Raecolith floor was laid in the kitchen, a new range put in the kitchen and new hot water pipes installed to replace those eaten up by our water.

In the Power House a new 150 H. P. boiler with an automatic stoker was installed; also a motor as relief for the stoker engine and a new instantaneous water heater.

At the Ranch a new De Laval milker was installed, and a hollow tile silo erected. Both of those are great improvements. The milker makes our milking arrangements about as sanitary as they can be made, and the silo greatly reduces our feed bill, while it increases our milk production.

## NEW BUILDINGS

A short time ago we entered upon a new departure, thorby creating a custodial or asylum department for Feeble Minded. One building accommodating forty people was erected and put into use. Now we have four more and are ready to move into them. We would have been in long since, but the floors cracked and had to be replaced, they seem, after more than a week to be holding up this time so we will "move in".

The children in these buildings are of a type which cannot take any abstract instruction, but they can be taught to care for their persons somewhat and a few can learn to do simple households tasks.

## SCHOOL WORK—DEPARTMENT FOR THE DEAF

In this department, two graduated. One will enter Gallaudet College at Washington, D. C. next fall, and the other is working on the Butte Miner as linotype man.

Five others passed the eighth grade examination, but all expect to come back next fall and take up their high school work.

So far as possible in this department we are teaching orally; however, there is always a certain percentage who cannot take their instruction to the best advantage in this way. These we teach through writing and spelling largely.

## BLIND DEPARTMENT

In this department, we had two who received eighth grade certificates, and one who graduated as a piano tuner and repairer.

We have been doing some work for the Vocational Rehabilitation people and these trainees have done well.

## DEPARTMENT FOR FEEBLE MINDED

This is an interesting department for while the classes are slow, still they do very nice work. They are keen for any sort of dramatics and put on a very creditable musical comedy.

## THE CAMP FIRE GIRLS

This association has prospered during the year. The self-imposed restraint has improved our girls a great deal.

## CONVENTIONS

The president attended and took part in the convention of the American Association of Instructors of the Deaf last year at Belleville, Canada. The meeting was a very pleasant one as well as an instructive one.

During the summer we entertained the Treasure State Association of the Deaf. This is made up of the adult deaf of the state. Their meeting was marked by kindly harmony throughout.

## THE RANCH

The additional land purchased for us—known as the “Merrill Ranch” has proven a blessing. While it is not producing as much hay as we would like to have, still in a few years we hope to have a great deal higher percentage of tame hay.

Our dairy herd has just been tested and all show clear.

At present we have one hundred-six baby turkeys and hope to raise enough for use for holidays.

We have produced all our lard and pork except the smoked meats and even a part of that. Also all our milk and cream and a share of our butter.

## INVENTORY

The value of the land and property belonging to the school may be summoned up as follows:—

Lands, buildings and improvements .....	\$ 401,837.57
Building A (Main) .....	\$ 45,000.00
Building B (Addition to A) .....	32,900.00
Building C (Manual Training) .....	24,500.00
Building D (Power House and Laundry) .....	9,000.00
Building E (Barn and Sheds) .....	1,500.00
Building G (Girls' Hall) .....	42,500.00
Building O (Old Carpenter Shop) .....	300.00
Building H (Hospital) .....	15,000.00
Building I (Dairy Barn) .....	3,200.00
*Building J (Old Barn) .....	
*Building R (Ranch House) .....	
*Building S (New Horse Barn) .....	
*Building T (Refrigerating Plant) .....	
*Building U (Slaughter House) .....	
420 Acres of Land—Ranch .....	18,453.00
Spur .....	2,90.24
Addition to Ranch House .....	10,026.30
Building F (F. M. Building) .....	87,230.77
New Bridge, Boulder river .....	8,138.24
Foot Cellar and Garage (Not Complete) .....	1,564.77
Dormitory F. M. .....	7,720.65

Hospital, Containing President's Quarters.

## Furniture and Equipment:

A. Building .....	5,625.00
B. Building .....	4,525.00
*Value of these buildings included in 420 acres of land.	
Above are the estimates of Messrs Milligan and Menzemer.	
C. Building .....	1,875.00
D. Building .....	1,337.50
E. Building .....	187.50
F. Building .....	10,000.00
G. Building .....	1,225.00
J. Building .....	75.00
R. Building .....	262.50
Farm Machinery and Sheds .....	515.00
Water Works System .....	6,000.00
Water Works at Ranch .....	2,800.00
Laundry .....	5,761.05
Coal Scales .....	827.73
Concrete Mixer .....	290.00
Separator—Ranch .....	187.32
Motor—Ranch .....	125.00
Pump—Power House .....	490.00

In conclusion I wish to thank this board for its kindness and unfailing help. Also I wish to thank the many friends—including the Universal Film Company—who have helped to make the school days of our children happy. Especially do I wish to thank my fellow workers, who have always worked so hard and been so *loyal* while I was away in particular.

Respectfully submitted,

H. J. MENZEMER,

President.

---

#### DOCTOR'S REPORT

TO H. J. MENZEMER, President:

During the past year at the State School Hosiptal, besides the casual examinations and recommendations given to pupils, of which no record was made. There were one hundred and forty-one examined and treated for various affections of the eyes, ears, nose and throat. Twenty-two had tonsil and adenoid operations performed. One boy was operated on for cataract, with the result that very good vision was obtained in the eye on which the operation was performed. One boy had a chalazion operation done. Thirty-eight others were refracted, and glasses supplied for them.

As in the past, credit for the successful termination in each of these cases is largely due to the generous co-operation of the teachers, who give them sympathetic treatment and careful attention.

Respectfully submitted,

John A. Donovan, M. D., F. A. C. S.

Oculist and Aurist.

### THE CAMP FIRE GIRLS

TO H. J. MENZEMER, President:

I submit this report of the work of the Camp Fire Girls.

We organized October 4, 1922, with twelve members, a guardian, and two assistant guardians. Two weeks after organizing we received our national charter. During the year we took in four new members. We chose the name of "Hoizin Skeligu" meaning "Silent People".

When the school had its sale the girls sold enough home made candy to pay incidental expenses for the year. And at Christmas the girls sold T. B. Stamps.

At the June Ceremonial Meeting ten girls received the rank of "Wood Gatherer". Our annual week-end camp was at the foot of Sugar Loaf and the Danenhauers kindly let us use two of their cabins for Headquarters.

In September 1923, three members did not return and two dropped their membership. Four new girls joined making a membership of fourteen.

At the Gymnastic Exhibition and dance the girls had a candy and lemonade sale and cleared about \$20.00. In December we handled the Christmas Stamps again and sold the second largest amount in the Boulder valley.

One girl was made "Wood Gatherer" in May. We had our week-end camp in Bear Gulch, and through the kindness of Mr. Wilson had the use of the Garfield cabin.

At the last Ceremonial Meeting five girls received the second rank of "Fire Maker" and one assistant was given rank of "Torch Bearer".

In conclusion I wish to thank you, my assistants, Miss Haug, and all others who have helped with the Camp Fire.

Respectfully submitted,  
MILDRED P. STURDEVANT,

Guardian.

**CARPENTER SHOP REPORT**

TO H. J. MENZEMER, President:

As an instructor of the Industrial Department I have the honor to submit my annual report of the Carpenter Shop for the year ending April 1923.

This year, I have only seven boys under my instruction and they have not had very much time to make many articles for exhibition on account of helping me to make new tables for the study hall and putting up a lot of shelves for the store room. They started to learn how to paint and varnish. One of our boys learned how to upholster. This year they have not worked on hard wood because the hard wood arrived too late for them to work on it.

**REPAIRS**

Repaired the floor in the typewriter room, made two new drain boards for sinks in the kitchen. Made new rack for keys in the office; built new tables for the study hall; put new shelves in three storerooms. Finished the stairway on the upper floor of the garage. Worked on the tunnel and put in a new floor; glazed about two dozen windows for four buildings. Replaced three dozen chair seats for the state ranch and the backward school. Fixed the doors at the backward school; made two new bins for the laundry. Helped Mr. McKinnon put new braces for the drive pulleys in the laundry.

**PAINTING**

The outside of the porch and part of the horse barn were painted, also 10,500 square feet of the walls and ceilings at the Girls' Hall. Two fire escapes likewise. About 1500 square feet of patch plastering was done.

**NEW ARTICLES MADE**

Twenty dining tables for the backward schools, one table, four waste baskets, three chick feeders, one coop for chicks, one book rack, one mallet, one foot stool, two glove boxes, two bins, two boards for sinks, eight-two feet of continuous table for the study hall besides small jobs to numerous to mention.

Respectfully submitted,

FRED J. LOW, Instructor.

Industrial Building  
Gymnasium

Dining Rooms

Kitchen

Shops

Girls' Hall

## PRINTING OFFICE REPORT

TO H. J. MENZEMER, President:

I have the honor to herewith submit the following report for the year, March 1923 to April 1924.

Application cards .....	500
Contract and Acceptance blanks, printed and Binet Test cards .....	300
perforated .....	200
Copies of the Twenty-seventh Annual Report consisting 28 pages with cover and pictures for each, and bound .....	525
Bill Heads .....	500
Copies of the Rocky Mountain LEADER, twelve pages, with cover—each .....	3325
Copies of the Montana TRAINER, three columns, four pages .....	1860
Copies of the Year Book, consisting twenty pages with cover, each bound .....	93
Farm Report blanks, printed and punched .....	500
Inventory cards, printed both sides .....	1000
Labeled, large envelopes .....	4000
Labeled, small envelopes .....	2000
Laundry lists, different forms .....	8800
Letter Heads .....	6700
Labels, printed address "To and From" .....	500
Menu blanks, printed both sides, punched .....	2000
Night Watch Report blanks .....	1000
Names of the Teachers and Oficers on Report cards	475
Notices of the closing school, printed .....	200
Notices of the opening school, printed .....	200
Official Receipt blanks, original and duplicate, 800 each .....	1600
Printed Form for office .....	1325
Pay Roll blanks .....	500
Printed picture of Main bldg. on post cards .....	600
Requisition blanks, printed, numbered and punched, original, duplicate, and triplicate .....	8307
Programs .....	1565
Certification slips for Camp Fire Girls .....	525
Warrant Receipt blanks, printed, perforated and punched, original and duplicate .....	2000
Blanks, Purchasing Department, printed both sides	250

Considerable work has been done for the president's office in the way of requisition blanks, application blanks, etc., orders sufficient to last one or more terms, have been filled.

This year the biggest order was the printing of 600 copies of the Annual Report. It is an excellent piece of work considering the limited equipment in our printing shop.

One of the most valued possessions a school could have is a well equipped plant with modern machinery and all necessary materials for carrying on a general newspaper and job printing business. Machinery and type cost money and a lot of it, but considering the benefit our boys receive it is well worth the money spent and more.

A linotype should be installed in our school printing office thus giving a chance for the deaf to secure work on the machine.

Respectfully submitted,

E. V. KEMP, Instructor.

---

### SEWING ROOM REPORT

TO H. J. MENZEMER, President:

I herewith submit the following report from March 21, 1923 to June 9, 1924.

Mending and patching for the big boys' department is as follows:

Coats .....	73	Sheets .....	194
Pants .....	68	Bath towels .....	327
Union suits .....	164	Hand towels .....	494
Night shirts .....	47	Wash rags .....	144
Pajamas .....	16	Christmas stockings .....	260
Boy Scout pants .....	3	Tennis net top bandage .....	1
Overalls .....	5	Dresses .....	8
Gymnasium pants .....	146	Bloomers .....	7
Gymnasium vests .....	35	Gymnasium bloomers .....	2
Sweaters .....	3	Aprons .....	2
Knickers .....	2	Night dresses .....	4
Socks (pairs) .....	1095	Underskirts .....	2
Overshirts .....	392		

Things made for Exhibition June 9, 1924.

Towels, blue crocheted edge .....	2
Towels, white crocheted edge .....	1
White crocheted insertion .....	2
Scarfs, crocheted edge .....	4
Scarfs, tatted edge .....	2

Pillow slips, (pairs), crocheted edge .....	2
Center pieces, crocheted .....	1
Pillow slips, (pairs), embroidered .....	2
Door panel—Peacock design (solid) 23x27, crocheted .....	1
Table cover 54 in. square, crocheted edge .....	1
Napkin to match 16 in. square, crocheted edge .....	1
Darned Huck towels in colors .....	9
Cap, knitted .....	1
Sweater, knitted .....	1
Sweater, crocheted .....	1
Jacket, crocheted .....	1
Bootes, knitted .....	2
Baby caps, tatted .....	2
Drawn work doily .....	1
Drawn work in red apron .....	1
Drawn work and hemstitched scarf .....	1
Boy's shirt .....	1

The sale during December 1923 produced a substantial amount.

Besides mending the big boys' clothes, the girls did their own mending and making over clothes. They took much interest in their sewing and household duties, thus securing good monthly reports.

An old electric motor machine was traded for a new one.

Respectfully submitted,

BESSIE H. BROWN, Instructor.

TO H. J. MENZEMER, President:

The deaf girls are doing their own darning and mending.

The older ones help with darning and mending for the boys' department. They are improving in their work and patience.

The blind girls, with two exceptions, are able to do their own darning and mending.

Respectfully submitted,

MRS. MILLIE LYON, Housemother.

**RANCH REPORT**

TO H. J. MENZEMER, President:

The Ranch has produced during the fifteen months ending June 30, 1924.

Milk .....	403,284 lbs.	Poultry, (dressed) ....	664 lbs.
Cream .....	62,209 lbs.	Rhubarb .....	176 lbs.
Eggs .....	2,097½ doz.	Potatoes .....	135,015 lbs.
Beef .....	5,356 lbs.	Vegetables (other) .....	10,193½ lbs.
Veal .....	2,379 lbs.	Calves (born) .....	40
Pork .....	6,707 lbs.		

Respectfully submitted,

H. G. HUBBARD, Foreman.

---

**CHIEF ENGINEER'S REPORT**

TO H. J. MENZEMER, President:

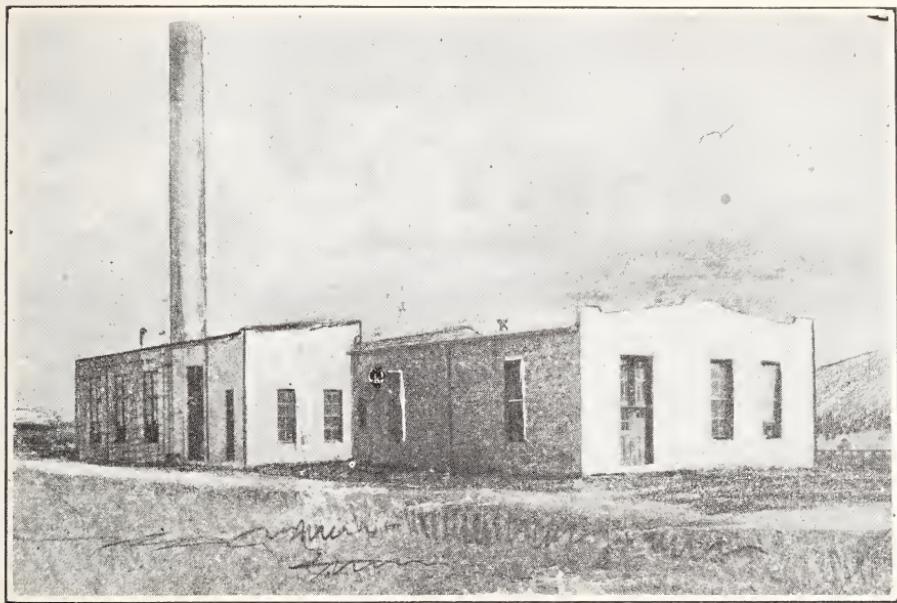

Since my last report we have installed one new 150 H. P. boiler and stoker complete. We dropped all stokers fifteen inches, making the distance from boiler to grate forty-nine inches instead of thirty-four inches as formerly. We also installed an instantaneous hot water heater. All steam and water pipes have been laid in tunnels, branches being taken off the seven inch main to all buildings. We also installed a new double washer and tumbler in the laundry which brings it fairly up to date.

The coal we are now using is not suitable for the stokers. It is impossible to keep the grate tuyeres tight enough to prevent the slag coal oozing through. I am informed that No. 3 and 4 of this coal gives good results. If we are to have the same coal for next year, I should like to have it mixed.

We overhauled all apparatus, putting it in good shape, but did no painting last year.

Respectfully submitted,

V. J. McKINNON, Chief Engineer.

Power House and Laundry.

Ranch Dormitory.

**REPORT FROM THE DEPARTMENT OF  
BACKWARD CHILDREN.**

TO H. J. MENZEMER, President:

I have the honor to submit herewith the twenty-ninth annual report for the department for backward children.

The general health of the children has been exceptionally good. Our epileptics have made their usual demands upon us. We have had one fatality from this disease.

The visiting physician has given medical treatment to all the children whose physical or mental condition needed professional treatment.

The dentist and aurist have treated all children who needed their care.

Our waiting list is still large and far exceeds our present capacity. We are taking care of a number of delinquents, who are unfit associates for our innocent school children and seriously embarrass our work. We have tried, so far as possible, to give those cases moral training as well as mental and physical attention. We have had to take care of mentally disturbed cases who are a disturbing element in our school rooms and the dormitories where our children sleep.

The custodial care of those cases in the school department is harrassing and detrimental to the school room work. Many of our children are able to help in the general work of the farm and home. But this does not mean that they become entirely self-supporting, or that they are not a dangerous menace as a social evil in the propagating of this kind. I suggest as a safe guard to society, a protection to the child, and for the honor of both child and family, whenever released legally from the custody of the institution that all such cases submit to the Law of Sterilization. In fact for the welfare of the Commonwealth this suggestion is imperative.

The work in our school classes is simplified to meet the requirements of the retarded and slow intelligence of our children—but closely approaches the curriculum that is mapped out for normal children. Special branches, vocal and instrumental music; also manual training along various lines is maintained.

A number of girls are trained along domestic science lines.

Our custodial department takes care of the lower types, mentally and physically, for whom school instruction is out of

place. Yet, those cases are under careful training as regards health, habits, and domestic life.

Our weekly entertainments and amusements afford pleasure to all our children.

I am deeply obligated to all my co-workers for loyalty to the service, and for their never tiring efforts in working for the welfare of all concerned.

I desire to thank our many friends who have contributed so freely and abundantly at Christmas times and on other occasions to the happiness of our children.

In conclusion I desire to thank the Board for the many courtesies extended to myself personally and to add that I fully appreciate the advice and support which you have at all times, and on all occasions given to us in our work.

Respectfully submitted,

THOMAS ALEXANDER SMITH, Director

Lunch set, unbleached muslin with crocheted corners and colored emroidered, .....	1

TO H. J. MENZEMER, President:

I herewith submit the following report from July 10, 1923 to June 5, 1924.

Sewing for Building No. 1. F. M.

Laundry bags .....	6	Barber apron .....	1
Bungalow aprons .....	37	Table cloths, (Officers and Children) .....	16
Corset covers .....	20	Dish cloths hemmed .....	4
Bloomers .....	22	Tea towels hemmed .....	15
Underskirts .....	32	Pairs children hose , darned— each week .....	41
Sheets hemmed .....	47	Children's clothes, patched and buttons sewed on each week .....	41
Pillow cases .....	36		
Turkish towels hemmed .....	24		
Roller towels hemmed .....	10		
Kitchen aprons .....	12		

Extra work that was done by F. M. No 1 for F. M. No. 2.

Laundry bags .....	7	Kitchen aprons .....	12
dining room aprons .....	12	Tea towels .....	68

Stella Nadeau's machine work is good and she is very good at hand sewing, baisting, and darning hose.

Viola Miller's darning and baisting is very good.

Mary Seivers is very neat sewer.

Margaret Lasiter and Myrtle Skary are in the dining room and are doing very well.

Christina Siegal, Mable Walcott, and Myrtle Skinner are learning the art of smooth bed making and setting pillows straight.

Respectfully submitted,

MRS. O. M. BARMORE, Supervisor.

# *Regulations Concerning Admission and Retention of Deaf and Blind Pupils, etc.*

## SCHOOL FOR DEAF AND BLIND

1. The Montana School for the Deaf and Blind is open to all the deaf and the blind children of the state, between the ages of 6 and 21 who are too deaf or blind to be educated in the common schools.

2. No child who is idiotic, or afflicted with an offensive or contagious disease, or who is an invalid so confirmed as to prevent study will be received.

3. The institution is in no sense an asylum, nor a place of refuge for those who cannot see or hear. It is not an almshouse, an orphan's home or a hospital. It is conducted strictly as an educational institution and is a part of the common school system of the state wherein those who are deaf or blind may receive an education as a matter of right and not of charity.

4. Application for the admission of pupils must be made upon regular blanks of the institution which will be furnished upon request. All questions upon these blanks must be answered in full.

5. No child will be admitted unless he brings a certificate from a regular physician, stating that there has been no communicable disease in the neighborhood from which the child comes, and that he has not been exposed to such disease, within a period of fourteen (14) days. This is to protect us from epidemics.

6. No child should be brought to school as a pupil until the proper application has been filed with, and acted upon by the President and due notice sent by him to the applicant. In the case of indigent pupils, dependent upon county aid, an order of court to that effect as provided by the law (section 1170) must be filed with the President before the admission of such pupils.

Section 1170 reads as follows:—"In all cases where a person to be sent to said school is too poor to pay for necessary clothing and transportation, the Judge of the District Court of the district where such person resides upon application of any relative or friend, or any officer of the county where said person resides, shall, if he deem the person a proper subject, make an order to that effect, which shall be certified by the Clerk of the Court to the President of said school who should then provide the necessary clothing and transportation at the expense of the county, and upon his rendering his proper accounts therefor quarter annually, the County Commissioners shall allow and pay the same out of the county treasury."

Milk House, Cow-barn and Silo.

Dairy Herd.

7. The institution will provide for each pupil regularly admitted, board, lodging, laundry, medical attendance, instruction and school supplies, but cannot pay traveling expenses to and from the school or for any clothing. Each pupil upon entering school should be supplied with a sufficient quantity of suitable clothing to last until the close of the school term. The pupil's name should be clearly marked upon article of clothing, as otherwise, there is liability of loss.

8. Parents must furnish postage in all cases and may hear from their children in proportion to the amount furnished. The session lasts about forty weeks. Parents sending us fifty (50) cents may hear from their children once a week, ten letters and twenty-five postals. Those who do not furnish postage will hear once a month when the monthly report of the pupils' standing in school is sent home, except in case of illness when a report is made daily until the child is out of danger.

9. A contingent fee of \$10 should be deposited in every case to purchase such articles as clothing, shoes, etc., likely to be needed during the session. A strict account will be kept of all expenditures and an itemized statement made at close of the school year. Clothing and shoes may be sent from home or purchased by us here; but nothing will be furnished without the cash beforehand except in the case of county pupils.

10. The annual session of school begins the second Wednesday in September and close the second Wednesday in June. No extended holiday will be given at Christmas, and pupils are not allowed to go home unless there are excellent reasons and conditions justifying special permission. Promptness of attendance at the beginning of the session is of the greatest importance.

11. The President shall have power at any time to discharge a pupil from the institution for inability to receive instruction, from sickness or other cause or for continued misconduct and disobedience.

12. The institution is non-sectarian, but thoroughly moral, and religious instruction will be given, especially on the Sabbath, the nature of it being so general, that it is accepted by all churches and creeds.

13. All business letters of inquiry in regard to pupils or their concerns, or in regard to new pupils must be addressed to the President and **not** to subordinates, otherwise no attention will be paid to such letters. All money should be sent by express money order or registered letter directly to the President who will acknowledge receipt of same.

14. In the industrial department after a pupil has been assigned a trade to learn such pupil cannot change to another trade unless in the judgement of the President the change would be to the best interests of the pupils.

## MONTANA TRAINING SCHOOL FOR FEEBLE MINDED PERSONS

This school opened November 10, 1895 in the town of Boulder. It is under the same management as the School for the Deaf and the Blind but occupies separate buildings of its own.

Its object is to furnish **special** means of improvement to that portion of our youth who are so deficient in mind, or have such marked peculiarities and eccentricities of intellect as to deprive them of the benefits of other educational institutions and ordinary methods of instruction.

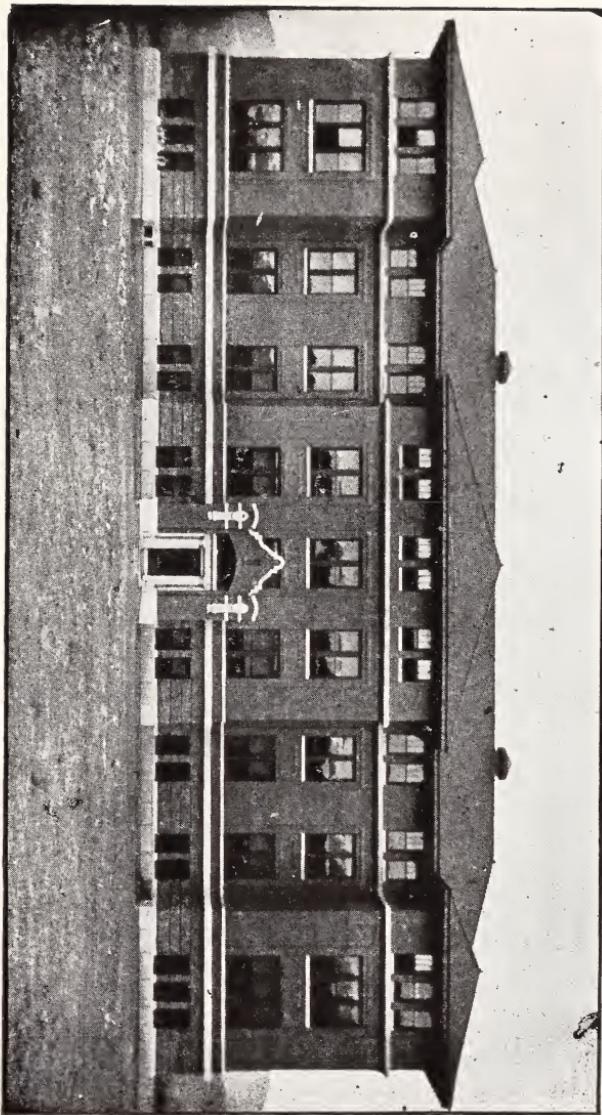

The education proposed will not only include the simple elements of instruction taught in common schools, where that is possible but will embrace a course of training in the more practical matters of every-day life, the cultivation of habits of cleanliness, propriety, self-reliance and the development and enlargement of a capacity for useful work. To promote these objects, pupils will receive such physical education, and such moral and hygenic treatment as their peculiar and varied conditions demand.

Mental imbecility depends upon some abnormal or imperfectly developed condition of the physical system, a condition in which the nervous organization is especially defective—preventing the harmonious and natural development of the mental powers.

The feeble-minded are generally feeble in body as well as mind. They are wanting in muscular and nervous power, the gait and voluntary movements are generally awkward and slow, and the special senses undeveloped or inactive. Physical training and phys cal development will, therefore, be essential to permanent mental improvement, and hence the importance of gymnastic and calisthenic exercise in treatment. The reciprocal influence of the body over the mind, and the mind over the body must be carefully studied and applied. The dormant energies of the body must be roused to action by every possible means. The wayward muscles are to be taught to move in obedience to the dim spark of will that may exist. The will must be strengthened and odeveloped. The very feeble power of attention must be cultivated and increased by the most active means. The affections must be nursed, the special senses trained and educated, vicious habits are to be corrected, and the idea of obedience and moral obligation must be planted and nourished.

Some children who are merely backward and remain undeveloped from being misunderstood, neglected or abused, can, by special means, be brought out and reclaimed. Others can be arrested on their downward course, and made orderly, obedient, affectionate, docile and industrious; and nearly all can be materially improved in their general cond'tion and habits. But in order to secure the realization of these blessings to this afflicted class, they must have the special care, treatment and instruction which

School Building—Feeble Minded

cannot be obtained in the family at home, or private medical practice or by any of the ordinary methods of instruction, but only in some well-directed institution arranged, furnished and organized for the accomplishment of these objects.

---

### **REGULATION CONCERNING ADMISSION TO THE MONTANA TRAINING SCHOOL FOR FEEBLE MINDED PERSONS**

The Montana Training School for Feeble Minded persons is open to all Feeble Minded minors and adults.

Application for admission may be made to any District Court or to a judge thereof, by either parent of the subject; by any person entitled to its legal custody; by a superintendent of a County Hospital; by any officer of the State Bureau of Child and Animal Protection; by the applicant in person; or by the superintendent of any of the state institutions. After proper hearing, the judge of said district court will then issue an order of commitment in accordance with Chapter 102 of the Session of the Sixteenth Legislative Assembly.

The Institution will provide for each person so committed, board, room, laundry, medical attention, instruction, and school supplies.

No inmate may be removed from the institution, permanently or temporarily, except upon a written order from the Superintendent, or upon an order from any District Court of the State, the costs of such court action to be borne by the party bringing the action.

Letters and packages for the pupils should be addressed in care "H. J. MENZEMER, President".

All other communications address to

H. J. MENZEMER, President,

Montana School for the Deaf and the Blind,

Boulder, Montana.
